About the property	8	9	Private	2 000 m2	24 000 m2	Property ID: RE-19-10-0035

Panoramic sea and mountain views

This elegant and secluded estate is designed by the local Marbella architect, Miguel Tobal, and is situated in one of Nueva Andalucía's most private and desirable gated communities in La Quinta. Positioned at the end of a cul-de-sac, a magnificent driveway embraced by lavish gardens is followed by a beautiful porte-cochère that leads you into a 1 700 m2 villa. A double-height hallway overlooks the main living spaces and opens to a beautiful Bermuda grass garden and a pool area with unique panoramic sea and mountain views.

Outside, you will find an enormous wrap-around covered terrace with several different seating and dining areas - an ideal environment for relaxation! The heated saltwater pool with a great rock cascade feature is accompanied by a gazebo with an outdoor kitchen and barbeque area. The main centerpiece of this property is an open gallery with two libraries overlooking the double-height ceiling living room leading into a large and spacious country-kitchen with the latest appliances, accompanied by a beautiful dining room.

The ground floor also incorporates a spacious lounge area accompanied by four en suite bedrooms, leading into the master bedroom, offering an elegant walk-in wardrobe and a fabulous bathroom with some of the best panoramic sea views on the Costa del Sol. On the lower level, you will find features such as a vast entertainment room, a billiard and cinema room, accompanied by two en suite bedrooms and a staff lounge. The property comes with an 11-car garage, a spa area with an indoor pool, a sauna and a Turkish bath, and a fully equipped gym.

The property also offers features such as 40 centimeter thick walls with double insulation, electric underfloor heating in the bathrooms, waterborne underfloor heating throughout the rest of the property, master-class carpentry, a water purification system, double glazed security windows, solar panels, domotics, an embedded sound system, a security system, and a control room suitable for five-star hotels.
